Description of Exercise

The East Downtown Park master plan was completed in spring of 2006 with guidance from a citizen advisory group. Base park improvements are planned for funding through the corps of Engineers and Lincoln Parks & Recreation. We need your help in prioritizing additional park amenities through several phases of construction. Please take a look at this “menu” and decide how you would spend up to \$10 for new park features. Rank your highest priority item by marking a “1” in the small box to the right of each item and continue until you have ranked all of your choices, and then total what you’ve spent at the bottom. Your opinions and direction are greatly appreciated.

**A**  
**Waterfall Fountain**  
water from this fountain cascades over a series of retaining walls and collects at the base of the Fountain Jet

☐ \$1.00

**B**  
**Big Slides**  
fun for kids and adults, slide down the slope on the north end of the park

☐ \$.75
